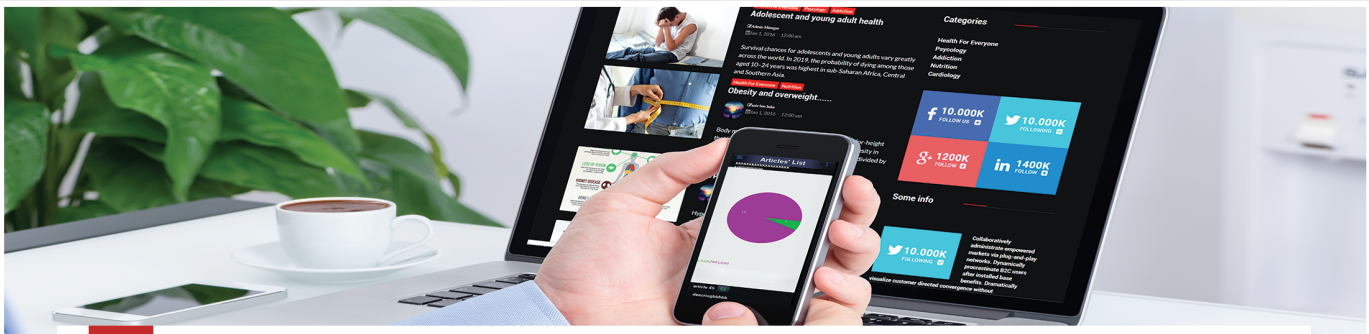
Portfolio including the most appreciated projects I worked on recently.



01. Sa7ti.tn

A cross-app plateform (web, dektop and mobile) developped with symfony/twig, java/javaFx and codename one
As the name suggest it's a healthcare app for doctor and patients that takes medicare to an other level

02. Rapid Post

A QT/c++ Desktop application to manage a post office RH departement

03. Optic Plus

An E-commerce Dynamic website offering online payment and many other features

04. Drago-Knight

A 2 stages 2D video game, developped with SDl and C programming langage. To play you'll need the 3D printed custom made joystick using arduino technology. it was my first big project and it won Esprit Bal de Projet 2019.

12 JUNE 2021

Dear Mr/Mrs recruter,

It is with great interest that I submit to you the enclosed resume in the hopes of securing an internship role with your company. As a current IT student at ESPRIT with an increasingly extensive knowledge of diverse IT systems and implementations—complemented by my superior team collaboration and project management abilities—I feel confident that I would significantly benefit your organization as your next IT Intern.

My background has prepared me to excel in an internship capacity, enabling me to amass hands-on practicum and experience in application developpement . With a solid foundation in a variety of technological systems and platforms, my technical and leadership abilities, coupled with my adaptability and interpersonal skills, position me ready to thrive in this challenging and energizing field. Additionally, my demonstrated talents in project life cycle coordination will allow me to become an immediate asset to your team.

Highlights of my background include:

Demonstrating a keen aptitude for technology programs and solutions; participating in comprehensive educational program to achieve my Bachelor's degree in Information Technology (expected 6/2023).

Achieving extensive knowledge in various programming langages and Frameworks, Desktop and Mobile Applications Developpement, web design and logistical oversight to facilitate organizational success.

Utilizing polished organizational, analytical, problem-solving, and team-building talents to propel projects and teams to peak results.

With my academic-based experience in basic IT functionalities, coupled with my enthusiasm and dedication to achieving success, I believe I could swiftly surpass your expectations in an internship capacity. I look forward to discussing this opportunity with you in further detail. Thank you for your consideration.

Sincerly
Mohamed Aziz Ben Haha
